

VIOHALCO

VIOHALCO is the holding company for the largest metal processing group in Greece and one of the country's largest industrial groups. VIOHALCO was established in 1937, and has been listed on the Athens Stock Exchange since 1947.

VIOHALCO

With production facilities in Greece, Bulgaria, Romania and the United Kingdom, the Group specializes in the manufacture of Copper, Aluminium and Steel products as well as Cables.

VIOHALCO Group companies employ more than 8,000 people and generate an annual turnover of approximately € 2.5 billion.

Strongly export oriented, the Group accounts for approximately 7% of the country's total exports. Its products are sold in more than 60 countries worldwide, either directly or through its commercial subsidiaries in the United Kingdom, Germany, France, Bulgaria, Italy, Romania, Serbia & Montenegro and Cyprus, as well as through an extensive network of representatives.

Focusing on high quality and reliability, the Group has founded a Centre for Metals Research and Development and its companies are certified according to ISO 9001: 2000, as well as ISO 14001 for environmental protection. They hold product quality certificates issued by accreditation agencies from different countries, a fact that enhances the competitiveness of the Group's products, in world markets.

Aluminium Sheets and Coils for Building & Construction
Transport Applications
Rigid Packaging
Flexible Packaging
Industrial Applications
Lithography

Aluminium architectural profile systems
Aluminium extrusions for industrial, automotive and marine applications
Etabond composite panels for exterior cladding
Etabond light composite panels for interior applications and signs

Surface-critical rolled aluminium products.
Litho sheets for the offset printing industry including "Computer-to-Plate" applications.
Foilstock
Bright Tread Plate.

Concrete reinforcing steel (bars or coils), Mesh (fencing, prefabricated concrete reinforcing, tailor made reinforcing mesh SIDEFIT 500C, Steel Cages of Lateral Reinforcement SCALAR). Merchant bars (rounds, flats, squares, equal angles and sections IPE, UPN), Wire rod, Billets, Hot rolled strip, Steel tubes, Hollow sections, Heavy plates, Steel fibres

Semi-finished products (billets, blooms and slabs)
Flat products (heavy-quarto plates)
Special profiles (railway connections, ploughshare blades and THN mining profiles)
Merchant bars (UPN channels, rounds, equal angles, standard flats and boron steel flats)
Bright steels
Grinding balls
Wire mesh (electro welded)

Steel Pipes and Hollow Sections
Manufacturer for the oil, gas, water and construction industry.
External and internal anticorrosive protection of Steel Pipes.

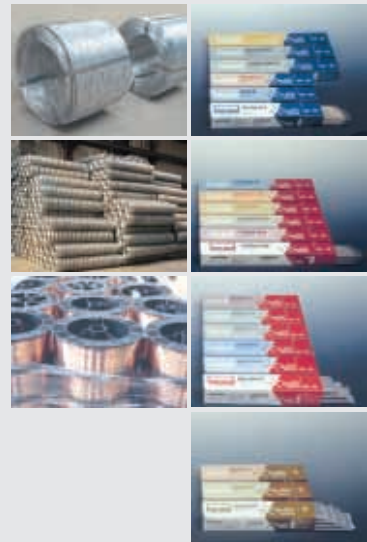

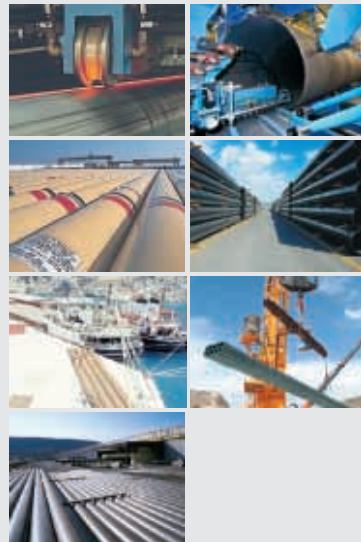

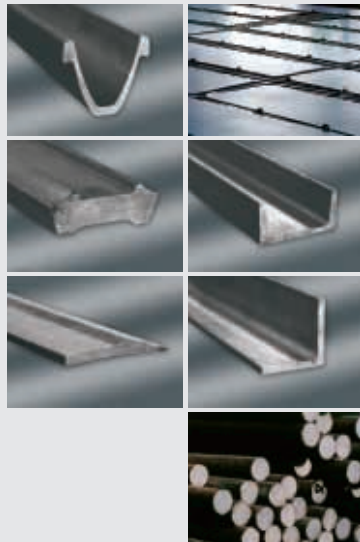

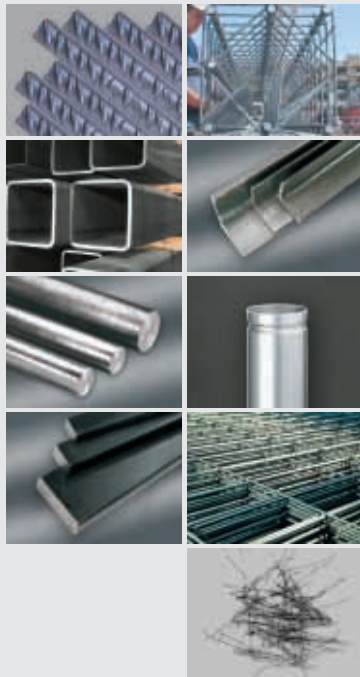

Bright (black) wires
Galvanized wires
Galvanized fencing mesh
Electrodes
Welding wires
